## LOAN RULES.

1. Loans, repayable within twelve months, are granted to officers, civil or military, who can arrange for the regular payment of their stipulated monthly instalments. at Agra, on the security of two approved sureties.

2. Under the same condition, and to the same classes. Loans requiring two

years for repayment are granted with three surcties; and loans requiring three

years with four sureties.

3. In the last two cases, where it may not be convenient to give more than two sureties, the loan must be further protected by a life insurance: but on application to that effect through the sureties, they consenting to the same, the directors will be prepared to allow the discontinuance of the policy on a loan of the two year class, after the expiration of the first year, and on a loan of the three year class after two years have expired. But where the borrower is on foreign or

field service, the loan must always be covered by a life insurance

4. To avoid the inconvenience and delay attendant upon the execution by principal and sureties of the various loan papers, the Secretary is authorised in cases where moderate amounts for short periods are desired for immediate purposes, to advance the same on promissory notes at 3 months date with one approved endorsement. The Secretary will furnish all other particulars necessary.

5. When a debtor dies, the balance (after discharging his own debt in full) of any policy of assurance upon his life will, at the discretion of the directors, be detained as security for the repayment of the balance of any account for which

he may be responsible as a surety.

6. Under particular circumstances, and with the written consent of sureties to the proposed suspension, an officer may apply to the directors for the temporary discontinuance of his instalments.

7. Where parties may find difficulty in effecting their remittances to Agra drafts on Calcutta or elsewhere, will be received in repayment of loans at the

exchange of the day.

8. The mortgage of real property in the hill stations and larger military cantonments will be taken in place of life assurance, provided that the property be officially registered in the station books as belonging to the Bank, and that the amount advanced thereon be regulated by previous official report as to its true value.

9 Furlough loans, of which applicants may avail themselves in the whole amount before leaving India or in part as required, will in special cases, be granted at per cent, during 3 years absence from India, and subsequently at the rates above regulated, on the guarantee of three approved sureties (for whose protection, as in other cases, the life of the borrower will be kept adequately insured), the periodical instalments being deferred until the expiry of the usual furlough, or, if earlier, the return of the party to duty.

10. In case of absence in Europe on medical certificate the period of repayment of loans will be extended in like manner, the interest reduced, and the instalments suspended on the party giving adequate insurance upon his life, or other

sufficient security.

11 In all cases of insurance, unless the debtor himself desire that the policy should be maintained at its original amount, it is reduced half-yearly according

to the gradual liquidation of the debt

12. Regimental loans repayable in five years are granted at 8 per cent. to corps to facilitate the establishment and maintenance of messes. Bands, libraries, and other regimental purposes. The Secretary will be glad to frame scales for

shares for regiments requiring advances

13. Loans are granted on the security of government paper, on the stock of the Calcutta, Madras. Bombay, Delhi, and N. W. Banks and on the shares of other approved joint stock concerns, where the parties borrowing give to the Bank a power to sell the notes or shares forming such security, if, on one mouth's notice of intention to close the account, the loan - which will, in the first instance, be for three mouths, and thereafter renewable for a similar term or terms - shall not then be repaid in full.

14. Parties desirous of taking advances in Bombay, Madras, or Calcutta may arrange for the same at Agra; the interest chargeable thereon will be at the rates,

if lower, prevailing in those places respectively

15. Interest on loans is charged from the date on which the amount is placed as a floating balance at the disposal of the borrower, according to notice given, and is allowed, at the same rate, upon all remittances from the date of their realization.

16. When loans are not liquidated within the period agreed upon a penal interest of two per cent, per annum additional is chargeable upon the balance

overdue.

17. It is a condition of every loan that the party berrowing shall be subject

to the general rules of the Bank, in respect of such transactions.

18 Constituents of the service, when writing to the Bank, are requested to add their rank or official designation to obviate the delay of reference; and with the same view applicants for loans are also requested in naming their sureties, to furnish a similar detail regarding them, reporting also their residence at the time, in order that the loan papers may be forwarded to them direct, if they have previously consented to stand as such

19. All Loan accounts with the Bank are brought up periodically to the 30th of June and 31st of December, and interest thereon is credited or debited to those

dates half yearly.

20. When parties already indebted to the Bank require further accommodation, the balance due on the former account must be deducted from the new loan: as a general rule two accounts with different sureties and different terms of payment cannot be kept open at the same time.

21. The directors give a preference to applications for loans repayable within

a short date.

22. The Bank render accounts once in the half year, when called for.

23. No letters bearing postage will be received by the Bank, except from pay masters, deputy pay masters, or other public authorities or from places where no postage can be levied. At the close of each half year, and in closing each loan-account, a charge of 8 annas is made.

N. B.—Parties at and below Dinapore may transmit their applications to Agra, or at their option, to Calcutta, to the address of F. R. Neilson, Esq., Agent of the

Bank.

## NORTH WESTERN BANK OF INDIA.

#### Meerut.

#### CAPITAL 40 LACS OF RUPEES.

The Mussouric Bank was established at Mussourie by Captain Frederick Angelo, P. Salaroli, Esq., and John Rose Troup, Esq., with a capital of one Lac of Rupees.

In 1842, eight additional shareholders were taken into the association, and the business of the Bank was managed by Capt. Federick Angelo, secretary, the objects of the undertaking being confined to the Improvement of the Settlement, and assisting the residents in it.

On 1st January 1844, the capital of the Bank was increased to 5 Lacs of Rupees, a Deed of 'o-partnership on the plan and conditions of that of the Agra Bank was agreed upon, and the shares having been fixed at a valuation of Re. 500 each, were sold to the public at par, and this was considered the Establishment of the Company as a joint Stock Bank.

The business having been more generally extended, and continuing to increase rapidly, it was found requisite on 1st July, 1844, to increase the capital to 10 Lacs, and the location of Mussourie having been found inconvenient for the increased business of the Bank, it was decided on 26th October, 1844, that it should be removed to Meerut, under the denomination of the North Western Bank of India, leaving a branch at Mussourie.

On 1st January 1815, it was again found necessary to increase the capital to 10 Lacs, making the paid-up capital amount to 20 Lacs of Rupecs.

On 1st January 1816, it having been resolved to establish Agents in Calcutta, Bombay, and London, a further increase of 10 Lacs was determined on, making the paid-up capital 30 Lacs, which has been further increased to 40 Lacs during the byegone 12 months.
